Subject: North Beach Water, ID #63000C, Pacific County; Water System Plan, ODW Project #15-0505

Dear Mr. Neal:

The Water System Plan (WSP) received by the Office of Drinking Water (ODW) on May 15, 2015, along with a subsequent submittal received on September 17, 2015, have been reviewed and are **APPROVED**.

Approval of this WSP is valid as it relates to current standards outlined in WAC 246-290 revised March 30, 2012, WAC 246-293 revised September 1997, and RCW 70.116 (Municipal Water Law) effective September 2003, and is subject to the qualifications herein. Future changes in the rules and statutes may be more stringent and require facility modification or corrective action.

An approved update of this WSP is required on or before January 8, 2022, unless ODW requests an update or plan amendment pursuant to WAC 246-290-100(9).

APPROVED NUMBER OF CONNECTIONS

Based on the information supplied in this WSP, this system has sufficient capacity to meet the growth projections for the identified six-year planning period. ODW will reflect this condition by noting on the water facilities inventory (WFI) form and operating permit an "**unspecified**" designation for this system's approved number of connections. The analysis presented in the WSP demonstrates that this water system has the capacity to adequately serve a total of 2,884 equivalent residential units (ERUs), assuming 278 gallons per day per ERU maximum day demand. The limiting factor described in the approved WSP is storage capacity.

You are responsible for permitting the addition of new service connections to your water system in a manner consistent with the approved WSP. We expect you to maintain a process, which recognizes all new connections added to the water system, and the water demands associated with each connection. Your process must assure that physical capacity and water right limitations are not exceeded.

LOCAL GOVERNMENT CONSISTENCY

Tim Cross, Planning Director, Pacific County signed the local consistency statement on June 4, 2015. This meets local government consistency requirements for WSP approval pursuant to RCW 90.03.386 and RCW 43.20.

SERVICE AREA AND DUTY TO SERVE

Pursuant to RCW 90.03.386(2), the service area identified in this WSP service area map may now represent an expanded "place of use" for this system's water rights. Changes in service area should be made through a WSP amendment.

North Beach Water District has a duty to provide new water service within its retail service area. This WSP includes service policies to describe how your system plans to provide new service within your retail service area.

CONSTRUCTION WAIVERS

Standard Construction Specifications for distribution main extensions in this WSP are approved. Consistent with WAC 246-290-125(2), this system may proceed with the installation of distribution main extensions provided this system completes and keeps on file a construction completion report form in accordance with WAC 246-290-125(2) and WAC 246-290-120(5) and makes it available for review upon request by ODW.

WATER RESOURCES

Our approval of your water system plan does not confer or guarantee any right to a specific quantity of water. The approved number of service connections is based on your representation of available water quantity. If the Washington Department of Ecology (Ecology), a local planning agency, or other authority responsible for determining water rights and water system adequacy determines that you have use of less water than you represented, the number of approved connections may be reduced commensurate with the actual amount of water and your legal right to use it.

WATERSHED PLANNING

The Service Area for North Beach Water District is located in Water Resource Inventory Area (WRIA) 24 (Willapa). Please contact Ecology for more information regarding watershed planning.

We recognize the significant effort and resource commitment involved in the preparation of this WSP. Thank you for your cooperation.

If you have any questions, please contact Mark Mazeski at (360) 236-3038 or Teresa Walker (360) 236-3032.

Sincerely,

Mark J. Mazeski

**NORTH BEACH WATER DISTRICT
PACIFIC COUNTY, WASHINGTON**

RESOLUTION 07-2016

**A RESOLUTION OF THE NORTH BEACH WATER DISTRICT OF PACIFIC COUNTY,
WASHINGTON, ADOPTING THE NORTH BEACH WATER DISTRICT 2015 UPDATED
WATER SYSTEM PLAN**

WHEREAS, Washington Administrative Code (WAC) 246-290-100 requires water purveyors to periodically submit a water system plan for review and approval by the Washington State Department of Health; and

WHEREAS, the Board of Commissioners of North Beach Water District (Board), on January 21, 2014, adopted Resolution 04-2014 authorizing the general manager to enter into a contract with Gray and Osborne, Inc., professional engineers, to assist the District in updating North Beach Water District's (District) Water System Plan (Plan); and

WHEREAS, the Board, on March 17, 2014, adopted Resolution 07-2014 authorizing the general manager to enter into a contract with FCS Group., financial consultant, to perform a rate study and assist the District in updating financial planning elements of the Plan; and

WHEREAS, on September 17, 2014, the Plan was discussed at a special meeting/workshop by the Board, and

WHEREAS, on March 16, 2015, the Board held a public hearing, the purpose of the public hearing being to present and receive comments about the District's Water Use Efficiency Goals and Measures (WUE Goals) as required by WAC 246-290-830, and

WHEREAS, on April 20, 2015, the Board held a public hearing, the purpose of the public hearing being to present and receive comments about the Plan as required by WAC 246-290-100(8); and

WHEREAS, the Board, on April 20, 2015, based on a SEPA checklist prepared regarding the proposed adoption of the Water System Plan as a non-project action adopted Resolution 09-2015 determining that the Plan does not have a probable significant adverse impact on the environment; and

WHEREAS, the Board, on January 20, 2016, adopted Resolution 06-2015 adopting WUE Goals for the 2015 - 2020 horizon; and

WHEREAS, on January 8, 2015 the State of Washington Department of Health Southwest Drinking Water Regional Operations approved the Plan; now, therefore

BE IT RESOLVED, by the North Beach Water District Board of Commissioners is hereby approved and adopted as the District's Water

System Plan effective the date set forth below, and further approved for public distribution in accordance with WAC 246-290-100.

Adopted by the North Beach Water District Board of Commissioners, Pacific County, Washington at its regular meeting held on the 20th day of January, 2016

Brian Sheldon, Commissioner
Position #1

Gwen Brake, Commissioner
