Subject: NBWD Coil Doors

Pat/David,

I spoke w/ Jim at Coast Garage Door in regards to the owners request to go away from the aluminum coil doors and go to a painted steel coil door. The 'credit' to do this is only \$320 each or \$1920 total. Labor is the same. I did inquire as to why the credit was so little and was told that Wayne Dalton actually misquoted the aluminum doors with the base bid...and are honoring the original misquote if we stay aluminum.

Let us know how you want us to proceed on this and we will get the submittals finalized.

Regards,

Ryan Helligso, Pres.
