Water Service Disconnection

Permanent disconnection from the water supply system of North Beach Water District may be achieved by remitting this Water Service Disconnection Application, remitting all water utility charges up through the date that said application is accepted by District personnel, and remitting payment of the applicable Water Service Disconnection Fee.

After the water service is removed, there is no guarantee that the location listed below will be able to be connected to the water utility in the future. The right to water provided by North Beach Water District is relinquished upon submittal of this completed, signed form. Any request for water service in the future will be dependent upon the number of remaining available connections. If connections are available, reconnection to the water utility will require application for new service and payment of all applicable fees. Under the current rate schedule, the minimum installation charge for a new water service is \$850 for the meter installation, \$1,500.00 for the water connection charge, and construction fees.

If you still wish to have the water service removed, please complete, sign, and return this document along with all necessary payments to our office. After receipt of the completed document, a work order will be issued to remove the water service. *Failure to complete this form in full may delay the removal of the water service.*

Customer Name: DAVID JOHNSON

Mailing Address: 3503 231 LN

City: OCEAN PARK State: WA Zip: 98640

Property Address: 25612 SAND RIDGE

Parcel Number: _____ Acct #: _____ Meter #: _____

I certify that I have the legal right to authorize the removal of the water utility service. I have read and understand the above document. I understand I am relinquishing my rights to water service provided by North Beach Water District and that in the future I may not be able to reconnect to the water supply system.
