**NOTES:**

**SRL (State Reporting Level):** indicates the minimum reporting level required by the Washington Department of Health (DOH).

**Trigger Level:** DOH Drinking Water Response Level. Systems with compounds detected at concentrations in excess of this level are required to take additional samples. Contact your regional DOH office for further information.

**MCL (Maximum Contaminant Level):** If the contaminant amount exceeds the MCL, immediately contact your regional DOH office.

**NA (Not Analyzed):** in the results column indicates this compound was not included in the current analysis.

**ND (Not Detected):** in the results column indicates this compound was analyzed and not detected at a level greater than or equal to the SRL.

**<(0.00X):** indicates the compound was not detected in the sample at or above the concentration indicated.

(lab mdl) lower than the SRL.

**NOTES:**

**SRL (State Reporting Level):** indicates the minimum reporting level required by the Washington Department of Health (DOH).  
**Trigger Level:** DOH Drinking Water Response Level. Systems with compounds detected at concentrations in excess of this level are required to take additional samples. Contact your regional DOH office for further information.  
**MCL (Maximum Contaminant Level):** If the contaminant amount exceeds the MCL, immediately contact your regional DOH office.  
**NA (Not Analyzed):** in the results column indicates this compound was not included in the current analysis.  
**ND (Not Detected):** in the results column indicates this compound was analyzed and not detected at a level greater than or equal to the SRL.  
**<(0.00X):** indicates the compound was not detected in the sample at or above the concentration indicated.  
 (lab mdl) lower than the SRL.  
<sup>1</sup>: Secondary MCL ( established for esthetic purposes, not health based.
