VI. Old Business:

A. South Wellfield Project Overview

There was discussion between the general manager and the board regarding the work needed to be completed in order for the plant to get running and if the money from the Drinking Water State Revolving Fund Loan could be used even if we do not have the money yet.

The general manager spoke to someone at the Department of Health who verified that yes we can be reimbursed for any money used towards the South Wellfield and the Treatment Plant to get it back up and running. That we just need to save all receipts and proof of work that was completed.

VII. New Business:

A. Oysterville Source Alternatives Analysis – Gray & Osborne, Inc

There was discussion between the general manager and the board regarding the possible inter-tie between North Beach Water District and Oysterville Water.

The general manager answered several questions the board had regarding the possible inter-tie.

The general manager informed the board that representatives from Oysterville Water will be here at the April meeting to discuss this in person.

The commissioner brought up that they do not want to see any burden befall our rate payers if this project goes forward. The board also mentioned that Oysterville should be paying for the entire inter-tie project.

The general manager is going to look into the best route to run a line up to Oysterville. Looking at going up Sandridge, Joe Johns or Vernon Avenue and what the best route would be for North Beach Water. The general manager will look into this and report back at a future meeting.

VIII. General Managers Report:

The general manager reported on (1) the generator maintenance being complete, the (2) the completion of the flushing, and (3) the use, sale, and loss of water.
